Hi Katherine,

Thanks for the weekend wishes. You caught me on Sunday so I hope to finish off some correspondence and go back to weekending soon.

I made one grammatical correction but otherwise the letter is pretty straightforward. Not sure he will find much directly on security of information on epa.gov.data but it is there within the open data documentation, reporting, etc.

Richard

All --

Please see the attached draft response. My goal was to inform Joel Schwarz about the Evidence Act and the presidential memo, in addition to answering the stated concerns. All while keeping it short. Let me know what you think.

Any chance you can give me a reaction by early afternoon on Monday March 1? Sorry about the tight turn around. This took me a long time to get to and I want to avoid asking for another extension (thought that may not be possible).

If you are seeing this on Friday -- have a good weekend. If you are seeing this on Monday, I hope your weekend was great.

--Katherine

It's been reassigned to OCFO. We can touch base at 11:30am.

Well, I wondered if this would start to happen on the heels of the presidential memo.

Richard, let me know how I can help.

Katherine -

The incoming letter and CMS control sheet are attached. Note that it looks like this has been assigned to OMS to respond to which does not make sense to me. If you believe this should be reassigned to OCFO to prepare the response (for David's signature on Jane's behalf), please let me know and we will ask for the control to be reassigned to OCFO.

Thanks,  
Diane

Katherine,

I am not able to get into CMS at this moment. As soon as I can I will email you the information.

Gena

Greetings --

Thanks for forwarding this, Diane. I want to make sure that I understand process/expectations. It's been a few years since I've had to think about controlled correspondence, other than for the ELMS bowling chart.

I don't have access to the CMS system, so Gena will pull it from the system for me? And then, I'm not expected to answer the correspondence because OCFO is only cc'd?

Thanks.

Hi Gena -

Please pull this incoming correspondence and send to Katherine. As a cc:\, a response is not required. If needed, Katherine can share with David and others.

Thanks,  
Diane
